COU No.776

This report is dedicated to the memory of Ron Scriver, Director of Operations at the Ontario Universities' Application Centre.

105-06013/

This report presents summary statistics on application and registration patterns of applicants (who were processed by the Application Centre), applying for fall entry into full-time study in their first year at an Ontario University.

This series of annual reports commenced with admissions in Fall, 1973.

It is possible that some first-year students may apply directly to institutions and hence may not be included in these statistics.
The Council of Ontario Universities, OUAC and the Ministry of Training, Colleges and Universities (MTCU), are working to establish a mechanism for the province-wide collection of registration data in a timely, complete and accurate fashion.

Users of this report should carefully review the "Definitions" (page 1) and "Limitations" (page 2) sections of this report.

.....

This report was prepared by the Research, Analysis and Policy Division of the Council of Ontario Universities and by the Ontario Universities' Application Centre. Requests for further information should be directed to A. Levine, Council of Ontario Universities.

Introduction

This report presents application and registration data for the Fall of 2004. The presentation of the data is identical to that used in last year's report. Users are cautioned to read the *Limitations* section of this report to be aware of any factors which might affect the comparability of data in this report to earlier reports in this series, and also to reports which present registration statistics.

Definitions

For the purpose of this report, the definitions used by the Ontario Universities' Application Centre have been employed.

Secondary school applicants refer to those applicants who were registered during the 2003-04 academic year as full-time day students in the OAC year at an Ontario secondary school. All other applicants were defined to be *Other applicants*.

Each applicant was allowed to indicate an unlimited number of choices of universities and programs. Each choice was considered to be a distinct *application*, even though the applicant submitted only one application form. Applicants also indicated their order of preference for their choices.

Throughout the admission cycle, applicants were permitted to amend their choices by dropping a choice and adding a different choice. Deleted choices are referred to as inactive choices or applications while current choices (up to the maximum of three) are called active choices. ***All of the tables in this report exclude inactive choices***.

The Application Centre is responsible for processing all applications for first-year full-time applicants who were not previously registered at an Ontario university. When these applicants subsequently registered at a university, they were designated as *registered applicants*. If a student had been previously registered (i.e. repeater or internal transfer between programs) at that institution, his/her application was not processed by the Centre. Data on all students registered in first-year programs on a full-time basis were provided to the Centre by the universities via the Statistics Canada/MTCU USIS/UAR system. Included in these figures were those students who had applied for advanced standing above first year but had subsequently registered in first year. Where universities did not identify the classification of some of their registrants, these registrants were recorded as unidentified registrants.

Statistics presented in this report deal only with applicants processed by the Application Centre who are applying for fall entry into full-time study in their first year of post-OAC programs. In addition to the exclusions listed in the previous paragraph, applicants seeking admission to preliminary year programs or diploma programs which do not require OAC's for entry have been excluded. Table 15 presents a reconciliation of the various categories of registrants in first year.

General Limitations

Trent University data by program may be revised, although the totals are likely to be correct. A revised copy of the report will be posted on the COU website www.cou.on.ca when updated data is received.

As previously stated, the Application Centre received data on registrations indirectly from the universities as part of their annual submission of USIS/UAR enrolment data to Statistics Canada and MTCU. In its operations the Application Centre employs a unique set of program categories; there may not be a direct correspondence between these categories and the program categories used by MTCU and Statistics Canada. Furthermore, there may be instances where a student is reported in one program to the Application Centre and reported in a different program to either MTCU or Statistics Canada. In addition, statistics showing enrolment in *First Year* from MTCU and Statistics Canada may include programs (e.g., law, medicine, etc.) that are not included in first year as defined by the Application Centre.

From 1995 to 2002, Ontario College of Art & Design only offered diploma programs, and therefore by definition were excluded from tables 1 to 14 in this report, but were reported in Table 15 (reconciles data from this report to OUAC numbers). Commencing with the 2003 report, OCAD offers degree programs and are therefore included in the main report.

Commencing with the 2003 report, the University of Ontario Institute of Technology (UOIT) is included in the report.

Commencing in 1998, students were no longer limited to 3 choices. Therefore, the number of applications is somewhat higher than in years previous to 1998 and therefore not strictly comparable. In 2004, each applicant, on average, submitted 4.05 applications. Secondary school applicants submitted, on average, 4.9 applications.

APPENDIX C

Explanation of Table 15 Column Headings

Table 15 reconciles the data in Application Statistics with the OUAC Admission Data System Report.

Registered Applicants in 1st Year
Registered applicants who applied for fall entry into full-time study in their first year of post-OAC programs. The figures exclude those seeking admission to preliminary year programs or diploma programs which do not require OAC's for entry.
This column, therefore, reconciles with Table 3 in the Application Statistics report.

The following five categories show registered applicants who registered in university, but are excluded from the Application Statistics Report:

1. Applied: Pre-U, Dip ***Registered: 1st year***
Students who applied for preliminary year programs or diploma programs and registered in first year.

2. Applied: Advanced Standing ***Registered: 1st year***
Students who applied for advanced standing and registered in first year.

3. Applied: 1st Year ***Registered: Pre-U, Dip***
Students who applied for first year and registered in preliminary year programs or diploma programs.

4. Didn't Apply: 1st Year ***Registered: Pre-U, Dip***
Students who didn't apply to first year and registered in preliminary year programs or diploma programs.

5. Other
Application unknown, and registered in first year.

Previous Registrations
Includes registrants who had initially registered in the preceding January or in the spring semester.

Unidentified
The classification of registrants were not identified by the university.

Grand Total: Registrants in 1st year
This column reconciles with Table 2.0 in the Admission Data System Report published by the Ontario Universities' Application Centre, and includes all first year full-time applicants who applied through the OUAC and were registered at a university in the current year.
